

# BLE Multi-Mode Asset Tag

## *Precision Where It Matters Most*

Not all assets require the same level of visibility. The BLE Multi-Mode Asset Tag gives healthcare organizations the flexibility to leverage BLE infrastructure today while enabling Clinical-Grade Locating and advanced workflows where greater precision is needed.

### Key Benefits

- Works in both BLE-only and Clinical-Grade Locating (CGL) environments
- Seamlessly transitions between BLE & CGL

# BLE Sticker Tag

## *Scale Visibility Everywhere*

Why stop tracking at your most critical assets? The BLE Sticker Tag makes it easy and affordable to extend real-time visibility to more equipment throughout your facility. Leveraging existing BLE-enabled infrastructure, it helps organizations expand asset tracking programs without added complexity.

### Key Benefits

- Cost-effective visibility for more assets
- Peel-to-activate deployment
- Leverages existing BLE infrastructure
