

Ensure safety and security of residents with the ultimate location platform.

The only Enterprise Location Services™ platform to uniquely combine the industry's most accurate Real-Time Location System (RTLS) with a proven resident safety and security solution. Just one infrastructure to install and manage – making it the world's most practical resident visibility platform available today. Clinical-Grade Locating™, wander management and access control with a single tag.

Resident Benefits:

- Freedom to interact with other residents
- Ability to use facility's resources without sense of "lock-down"
- Safety from wandering into dangerous areas
- Flexibility to adjust rules and access at the individual level
- Customizable by severity (high-risk vs. low-risk residents)

Facility Benefits:

- Becomes the first line of defense
- Enables quick response to wandering
- Integrates with existing RTLS for simplicity – all tags for residents and staff are maintained by one universal system

Why CenTrak?

CenTrak's platform can help facilities empower residents with a feeling of control and freedom while ensuring their safety and security.

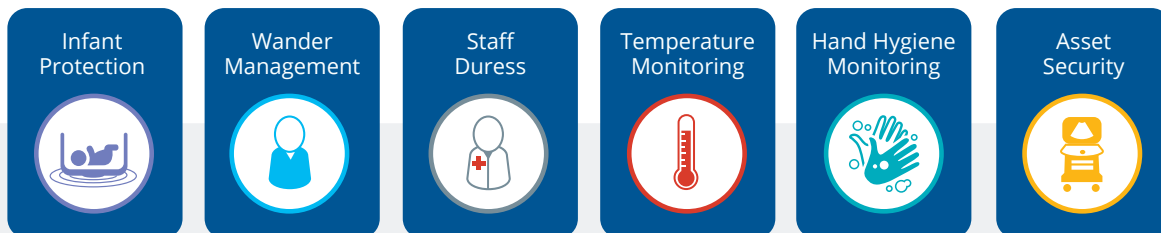

The system is programmable to allow certain residents to pass through designated access points (e.g. to reach a common area), while others remain secured and protected within different areas.

Future-Proof Platform

Support room-level locating, wander management, access control and many other use cases all with the same tag!

CenTrak's Security Solutions suite uniquely combines the industry's most accurate Real-Time Location System (RTLS) with a proven resident security system. The platform is fully integrated with easy-to-use, advanced and highly reliable software packages. Management and maintenance of this solution is simple and intuitive, yet highly sophisticated, with advanced settings making it attractive and approachable for all types of users.

CenTrak's versatile platform provides clinical-grade security for patients of all ages.
